

CIRCULAR HEAD MAYOR DARYL QUILLIAM'S MESSAGE 8 MAY 2018

Last week Circular Head hosted eight second year medical students from the University of Tasmania as part of their Rural Week program. The idea is to give them experience living and working rurally and to gain insight into rural health care services, conditions and needs. This week has become a permanent fixture and is hopefully encouraging some of these students to return to our district when they become fully trained doctors. These students visited most of our health facilities including Emmerton Park Aged Care Facility as well as visit some of our tourist spots. Thank you to the local Rotary Club, who supported the students by providing them with a place to stay for the week.

A number of Councillors and staff recently had the opportunity to visit the new Mill Creek dam, which is almost completed at Edith Creek. This dam is being built by Tas Irrigation as one of the schemes being built around the State. Within a month or so this dam should be ready to start filling up as long as we do not get too many wet days during this time. I am sure this scheme will help our farmers guarantee crops and good grass growth during dry summers in the future. I look forward to further schemes in our district in the future.

On Wednesday this week the Australian Hearing bus will be visiting Smithton to offer free hearing checks for adults in the community. The bus will be at the Woolworths Car Park between 10am and 2pm if you are interested in having a test, or speaking to someone about your current hearing device.
