Council plans for the next Decade in Circular Head

Council is asking the Circular Head community to think about how the municipality might grow and adapt over the next 10 years.

“Council is currently developing a 10 year ‘Settlement Strategy’, which is intended to create a clear vision for the future development of our community and will focus on things our community deem important to them, including population, lifestyle, recreation, tourism, housing, business and industry.” Said Circular Head Mayor, Daryl Quilliam.

The plan will have clear objectives to maximise opportunities, address challenges and be fully supported by goals resulting from extensive research and consultation with the community.

Council will be consulting with the community with a Draft Settlement Strategy in 2021 but to start with we are looking for early input from you now. We would like your thoughts about living in Circular Head, important issues to you, and your opinions on growth.

To capture this information, we are running a survey for the next five weeks, up until Christmas. By completing the survey, you can go into the running to win one of six \$50 Circular Head Gift Cards.

If you'd like to have your say on the Circular Head Settlement Strategy, go to:
