## Dear MR Garbage truck driver can we please see your garbage truck

Kindergarten students at Stanley school wrote a letter to Mr Garbage Truck man at Circular Head council and enclosed some lovely drawings.

“The letter was brought to my attention by the works department. At council we understand the school year for everyone has been tough, especially for these four and five year olds,” Circular Head Mayor Daryl Quilliam said. “The schools have missed different outings, camps and excursions this year, so we thought the Council could take the excursion to the school.”

Timing the visit after his rounds in Stanley, cleaning out the truck and visiting the school on the way back to the depot, the garbage truck man and his crew surprised the kinder/prep class.

The kids had a good look at the garbage truck and were educated about what you can put in your bin to avoid damage to the truck. There were a few keen garbage truck drivers by the end of the visit.
