

Church Street Precinct Master Plan

Placemaking + The Power of 10

The idea behind this placemaking concept is that places are most successful and active when users have a wide range of reasons to be there. Often 10+ activities is said to be ideal!

1. Walk the "Village Heart" on generous footpaths, via convenient crossing points to enjoy Church Street's historic streetscape.

2. Enjoy a coffee or fish and chips at comfortable outdoor dining spaces supporting local businesses.

3. Attend events at the "town hall square"

4. Stroll downhill from the "Village Heart" along Alexander Terrace or Church Street, stopping for a seat and to admire the beach views.

5. Park at Victoria Street and walk to the shops and cafes of the "Village Heart"

6. Walk back from a visit to Kings Park or The Nut and enjoy lunch at a café.

7. Inspect Stanley's WW1 memorial from the new plaza space below the statue.

8. Access the post office and shops at Church Street (south) from new footpaths and convenient parking.

9. Picnic out of the wind at Marine Park, while kids play on the lawn and upturned boats.

10. Visit the Stanley Museum and tourist shops on a day visit.

A master plan has been developed for the 1km length of Church Street - from Marine Park to Kings Park. A focus for streetscape and placemaking improvements is the "Village Heart" in the centre of the street, near Victoria Street.

MARINE PARK

CHURCH STREET VILLAGE HEART

CHURCH STREET SOUTH

KINGS PARK
